

"Sometimes congestion can be fun..."

But most of the time it's not.

There's no doubt about it, Anchorage and Mat-Su populations are growing fast. In fact, more than 300,000 new residents are expected to arrive within the next 25 years.

We need to prepare now. The congestion issues are not going to go away.

The Knik Arm toll bridge would broaden regional economies and transportation systems. And reduce future congestion in our communities, and on local highways and roads.

Look for additional information on technical findings from the Knik Arm Crossing project. Go to www.knikarmbridge.com.
