

March 8, 2005

Judith Bittner  
State Historic Preservation Officer  
ADNR, SHPO  
550 West 7th Ave., Ste 1380  
Anchorage, AK 99501

SUBJECT: Knik Arm Crossing Environmental Impact Statement  
Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Ms. Bittner:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

Page 2

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

Page 2

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs

Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Ms. Henry:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

Page 2

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs

Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Mr. Huffman:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs

SUBJECT: Knik Arm Crossing Environmental Impact Statement  
Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Ms. Menefee:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson

SUBJECT: Knik Arm Crossing Environmental Impact Statement  
Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Mr. Smith:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

Page 2

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs

SUBJECT: Knik Arm Crossing Environmental Impact Statement  
Invitation to Attend Agency Scoping Meeting on March 29, 2005  
Federal Project No.: ACSTP-0001 (277)  
State Project No.: 56047

Dear Mr. Nelson:

The Knik Arm Bridge and Toll Authority (KABATA), an arm of the Alaska Department of Transportation and Public Facilities (DOT&PF), together with the Federal Highway Administration (FHWA) Alaska Division Office would like to thank your agency for participating in the Knik Arm Crossing project partnering session held on January 26, 2005. Since the January partnering session, the Knik Arm Crossing project team has conducted one-on-one meetings with various agencies and officials, continued on-going engineering and environmental studies, and worked on preliminary corridor and design concept development. Reports on on-going studies for the project are included on a CD enclosed with this letter. The CD contains:

- Beluga Whale Report
- Marine and Fish Benthos Studies
- Contamination Report
- Water Quality Report

As you know, it is KABATA and FHWA's desire to use the National Environmental Policy Act (NEPA) to comply with all applicable environmental laws, and to merge the permitting and the environmental impact statement (EIS) process to the maximum extent practicable. Since the project will likely require substantial consideration of issues related to your agency's jurisdiction, your active involvement in the EIS process is critical to KABATA and FHWA. Therefore, KABATA and FHWA would like to invite you to attend the agency scoping meeting at the following time and place:

**Agency Scoping Meeting  
Knik Arm Crossing Project  
March 29, 2005  
12:00 PM to 5:00 PM  
CIRI Building (HDR Alaska, Inc.)  
4<sup>th</sup> Floor Conference Room  
2525 C Street  
Anchorage, AK 99503-2632**

March 8, 2005

Page 2

From 12:00 pm to 1:00 pm, there will be an open house with lunch and poster displays depicting information on various aspects of the project. The formal agency scoping meeting will begin at 1:00 pm. This **lunchtime open house** will provide you the opportunity to gain detailed project information and to talk individually with knowledgeable professionals.

As discussed during the partnering session, the Knik Arm Crossing project scoping process is an on-going process that will afford multiple opportunities to comment. The attached agenda includes the topics that will be covered at the March 29<sup>th</sup> meeting. KABATA and FHWA requests that your agency provide written comments on the information presented at the agency scoping meeting by April 28, 2005. The enclosed Knik Arm Crossing EIS & Permitting Process diagram illustrates the stages of the project and identifies future opportunities for your agency's involvement.

A supplemental mailing will be sent on March 15, 2005 with additional Knik Arm Crossing project information for your agency's review prior to the agency scoping meeting. This mailing will include, at a minimum, the Indirect and Cumulative Impacts Methodology and the Transportation Planning Implementation Plan.

If you have any questions, please give me a call at (907) 269-6641 or through email at [dale\\_paulson@dot.state.ak.us](mailto:dale_paulson@dot.state.ak.us), or contact Edrie Vinson, FHWA Environmental Project Manager, at (907) 586-7464, or through email at [Edrie.Vinson@fhwa.dot.gov](mailto:Edrie.Vinson@fhwa.dot.gov).

Sincerely,

Dale Paulson  
Director, Regulatory and Environmental Affairs
